CANTEEN MANAGEMENT SYSTEM

Date: 31-8-2022
Guide: Miss. Ankitha Philip

1. Project Overview?

   Canteen management system is especially focusing the Amal Jyothi College, Kanjirappally. By this the customers (both teachers and students) can easily order the food items in online and can be avoid the wastage of time. By this they can know the special items of that day. And also, they can choose the items from different types without any rush.

2. To what extend the system is proposed for?

   - Decrease the rush
   - Know the availability
   - Know the special items in that day

3. Specify the Viewers/Public which is to be involved in the System?

   - Canteen Staff
   - Teacher/Student

4. List the Modules included in your System?

   - Admin
   - Canteen Staff
   - Teacher/Student

5. Identify the users in your project?

   - Canteen Staff
   - Teacher/Student

6. Who owns the system?

- *Admin*

7. System is related to which firm/industry/organization?

Related to food

8. Details of person that you have contacted for data collection?

9. Questionnaire to collect details about the project? (min 10 questions, include descriptive answers, attach additional docs (e.g. Bill receipts, certificate models), if any?)

Question to students

!. How will you book your food and drinks in canteen?

Ans) We will walk to canteen and stand in crowd for booking our orders.

2. How do you pay your bills?

Ans) Cash or Upi.

3. Is the rate of food items available in the canteen?

Ans) No, We need to ask the price of each items every time.

4. Is there a booking system in your canteen?

Ans) No

5. How do you know the food item is available or not in the canteen?

Ans) We need to ask the waiter whether the food item is available or not

6. What are the features you expected if a site is developed to order food in the canteen?

- Availability of food
- Special item in the canteen
- Booking for the food
- Online payment

Questions to waiters

1.Is the order taking process difficult?

Ans) Yes, it is really hard when lot of students came to order at same time.

2. Is the food item is enough for the students and staff?

Ans) Sometimes it get tight for food when lot of students came unpredictably.

3. Is it helpful if you get the orders early?

Ans) yes it is really helpful to increase the items according to there needs.

4. What are the features you expected if a site is developed to order food in the canteen?

- To run the canteen with less staff in the ordering and billing section.
- Inform about the food items and drinks with there price.
- Inform students and teachers about special items if any is there.
